

I respectfully demand that the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the programming that I currently pay for and feel I deserve as a paying customer. My wife and I benefit tremendously from listening to XM Satellite Radio; we especially enjoy the comprehensive information provided by the traffic and weather channels. Satellite radio provides variety and quality that are simply unavailable elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what XM Radio listeners are permitted to hear.

Please reject petition 04-160 and to support XM's ability to provide the kind of programming that I pay for and the service that I demand.
